### Top 10 enchanting forests

April 22, 2013

## Caddo Lake, United States

Despite the name, this is one fantastic forest.

Located on the border between Texas and Louisiana, Caddo Lake is a 25,400-acre maze of waterways, bayous, sloughs, channels, islands and cypress thickets dripping with Spanish moss.

Named after the South Eastern Native Americans who lived in the area until their expulsion in the 19th century, the lake is home to the world's largest cypress forest.

This internationally protected wetland hosts a variety of wildlife, including beavers, woodpeckers, owls and even alligators.
